

## Commemorative book HONOUR features photographs by Yuri Dojc of Canadian WWII veterans.

For his book, HONOUR, featuring the portraits and memories of Canadian WWII veterans, renowned Toronto-based photographer Yuri Dojc chose a Sigma lens.

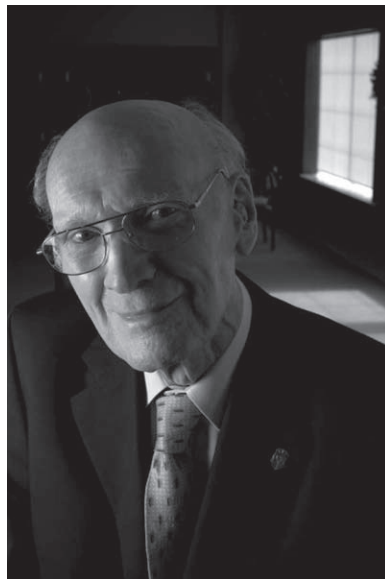

Inspired by the 2010 death of Canada's last WWI veteran in January, and in tribute to the 65th anniversary of the end of the Second World War, HONOUR is a moving portrait of 35 WWII veterans and those who supported the war effort. Created in partnership with Chartwell Seniors Housing, the book includes more than 35 stunning black-and-white and colour images photographed by Dojc using Sigma's 50mm F1.4 EX DG HSM lens.

This high-performance, large aperture lens ensured sharp images with high contrast and superior peripheral brightness, making it the ideal choice for Dojc to capture the compelling portraits that would visually complement the intimate memories shared by the veterans photographed.

*HONOUR can be purchased for \$10 at [www.chartwellreit.ca](http://www.chartwellreit.ca) or at Chartwell Seniors homes across Canada. Net proceeds will be donated to Canadian organizations committed to the remembrance of Canada's veterans, including the War Amps Operation Legacy.*
