SUCCESS WITH THE X009 IN THE TRUCK ACCESSORIES RETAIL STORE

Faulk's is primarily a truck accessory store selling bumper, tool boxes, bed covers, etc. The size of the store is 20,000 sq. ft. and it has been in business since 1978. Dean Comeaux, the manager, has been doing the 12V side of the business since 1986 and has always been a one-man show that continues to grow his sales and success each year. He is an Alpine Flagship dealer and has been extremely successful with the X009. Dean's success flourished when he started to layout the X009 series on his shelves and exhibit his prominent display to everyone who walks in his store even if it may not fit in the customer's vehicle. He also talks about all the benefits of having the X009. By doing so, he was able to install the X009 in various vehicles including the 2013 GMC Denali and 2011 GMC Sierra. Thanks Dean, for your Go Get Em attitude towards the X009!
